**ACCESS & COMMUNITY HEALTH**

**Primary Care**

access is critical to keeping individuals healthy. Delaware hospitals invest significant resources in supporting primary care providers in many underserved areas of our state.

$16.1 Million

The total financial loss in fiscal year 2018 incurred by four of Delaware’s healthcare systems in maintaining and supporting primary care providers and services in our State.

Delaware’s non-profit hospitals treat ALL patients who enter, regardless of their ability to pay.

In 2016 (the last reporting year) DE hospitals covered $200.2 million in unpaid costs of patient care, including charity care.

Every 3 years, Delaware hospitals conduct a Community Health Needs Assessment to evaluate and identify the health needs of their communities and work to implement strategies to address those needs.
